## **Kalterersee Classico Superiore “Alexander”**

Vintage: 2023

Grapes: Vernatsch (local grape)

Classification: Südtirol DOC

Planted: 1992

### **Provenance**

Our Alexander Kalterersee Classico Superiore is grown at an altitude of 350 metres, on the porphyry bedrock of a south-facing slope below the ruins of Leuchtenburg Castle – a unique location that, combined with the depth of the soil, allows us to produce an expressive Kalterersee with good shelf life.

### **Vinification and refinement**

The grapes are hand-harvested and stored in the cellar in small containers. After de-stemming and fermentation in wooden and stainless steel tanks, they are then matured on fine yeast for 9 months. 80% of the wine mature in wooden vats, 20% in barriques. After 6 months of bottle ageing, Alexander is ready for sale.

### **Description**

Alexander Kalterersee is fruity to the nose, with intense aromas of cherry and violet. With its elegant, soft tannins it offers an exquisite experience. It is a fresh, fruity and lighter red wine for all days.

ABV: 14,2 %

Acidity: 5,2 g/L

Residual sugar: 0.5 g/L

Named after my son Alexander
